21 Alliance Lane
Clayton Campus

Dear Ass. Prof. Barry Watson,

**Re: Construction Logistics and Community Safety - Australia (CLOCS-A)
Memorandum of Understanding Confirmation as a Supporting Partner.**

I am delighted to confirm that Hanson Australia (Hanson) is proud to apply to join the CLOCS-A Memorandum of Understanding (MoU) Finalised Version dated 3 February 2021 as a Supporting Partner (SP).

The MoU records the agreement between the Steering Group Partners (the Parties) and the SPs to form a relationship to work together in improving road safety and the operational efficiency relating to the logistics of the construction of infrastructure projects. The MoU will act as a catalyst for CLOCS-A Parties and SPs to champion and guide the establishment of CLOCS-A.

Hanson is part of the HeidelbergCement Group, which employs over 59,000 people across five continents. HeidelbergCement is a global leader in aggregates and has leading positions in cement, concrete and heavy building products.

Hanson has an extensive production and logistics network in Australia where we manage and operate a logistics fleet of ~1,500 heavy vehicles.

Hanson supply a comprehensive range of high-quality concrete, aggregates and sand. We also produce road base, asphalt and sustainable and recycled construction materials for civil construction and infrastructure projects.

In the United Kingdom, Hanson is a partner in CLOCS and meets the requirements of Gold in the FORS standard.

HeidelbergCement supports the UN Sustainable Development Goals and has developed the Sustainability Commitments 2030 which sets clear targets to be achieved by 2030. Two of these commitments are directly relevant to our proposed involvement as a SP of CLOCS-A:

Achieving excellence in occupational health and safety

“We are committed to continuously enhancing the occupational health and safety conditions of our employees, contractors and third parties.”

Being a Good Neighbour

“We are committed to supporting the social and economic development of our neighbouring communities and ensure transparent communication to all our stakeholders.”

As a SP of CLOCS-A, we commit to working with the stakeholders as per our Sustainability Commitments 2030 to help deliver the strategic goals of CLOCS-A.

In line with the MoU, Hanson Australia agrees to enter into the MoU in good faith and will actively support and participate in CLOCS-A activities. We nominate Peter Brownsdon, General Manager- Logistics as our CLOCS-A contact.

Yours sincerely,

Hanson Australia Limited

Peter Brownsdon
General Manager - Logistics
